SELFIE the word is most common among all the age group and mostly in college goes. SELFIE can be fragmented into SELF-EYE which is really SELFISH in nature who always like to see own face indifferent from others! A selfie is a self-portrait photograph, typically taken with a hand-held digital camera or camera phone. Belfie is a 'bottom selfie' - a photographic self-portrait featuring the buttocks, usually posted by female celebrities on social media networks. Selfies are often shared on social networking services such as Facebook, Instagram or Twitter. They are

usually flattering and made to appear casual. Most selfies are taken with a camera held at arm's length or pointed at a mirror, rather than by using a self-timer.
